

# 4.2.7 Cloning an existing spec sheet

<https://www.youtube.com/embed/le56yuwS0jc>

## 1. Open Bowler Profile

Select a bowler you would like to clone their spec sheet

[Open Bowler Profile](#)

## 2. Hit the CLONE button

Click here to create a clone of the default spec sheet.

[Open Specification Options](#)

## 3. Give the cloned sheet a specific name

Click "Spec Sheet Name" to name the clone of the spec sheet.

[Select Spec Sheet Name](#)

## 4. Confirm name

Once you have renamed the spec sheet, click here to confirm.

[Access Additional Options](#)

## 4. Modify the necessary fields

You can now proceed to make modifications to the bowler's specs.

[Open Further Specification Settings](#)

You have successfully created a clone spec sheet for an already existing bowler
