Creating a new bowler

Follow these steps to create a new bowler profile

1. On Desktop, click **BOWLERS** in the top menu

On Mobile, click the avatar icon on the bottom left of the menu

2. On the top right of your screen, Click **+ Add Bowler**

[+ Add Bowler](#)

3. Add the bowler's personal information. Keep in mind that many people have the same first and last names. Adding a phone number and email will help differentiate if bowlers have the same name. Phone number, Email and Picture are optional but strongly

4. Add a photo to the bowler profile

- Click the avatar logo

TAKE A PHOTO or open the file explorer to **ADD FROM GALLERY**

5. • **Handedness**

- When selecting a left handed player, you will notice that the button is red. This is a visual aid for you not to miss that the bowler is left handed.

• **PAP (Positive Axis Point)**

- The PAP is a vital part of the ball drilling process, and also the Spectre process. Without a PAP you will not be able to select a layout style in the Arsenal Section and you not be able to see the Layout Suggestions in Arsenal Plus.
